DTH134

13.3-inch Pen & Touch Display for Business

wacom for Business

Wacom Signature Display 13
The new standard in eDocument solutions

PRODUCT OVERVIEW

Featuring a 13.3" Full HD resolution LCD screen, touch functionality and state-of-the-art encryption, the USB-powered Wacom Signature Display 13 (DTH134) sets a new standard in eDocument solutions.

The spacious, vivid and touch-enabled 13.3" Full-HD LCD enables an optimal user experience for digital document signing, form filling and document annotation in any business application. USB-charging ensures a clutter-free working environment. And security is ensured with state-of-the-art encryption and a Kensington Nanosaver slot that helps prevent theft.

As with all Wacom products, the Wacom Signature Display 13 (DTH134) is extremely durable. Backed by our 3-year standard warranty and 5-year extended warranty*, you can be confident that it will look and perform like new for years to come. And, with a new, thinner device design, and driver-free** installation, workspace integration is easier than ever.

The Wacom Pen Driver is required in order to utilize most Wacom Ink SDKs. For full compatibility information, please visit our **developer documentation**.

KEY FEATURES & BENEFITS

- **Simplified integration**
  Single cable and driver-free installation makes workspace integration quick and easy.

- **Secure Transactions**
  Transaction security with state-of-the-art AES/RSA encryption

- **Enhanced Productivity**
  Touch functionality can be toggled on and off quickly and easily with a physical switch

- **Reduce Clutter**
  Single cable connection and additional USB-C input built-in. Ideal for saving space when connecting a finger-print scanner, NFC reader or other accessories.

- **VDI Compatibility**
  Certified for use with Citrix and VMWare virtualized environments – for both pen and touch input.
