| Feature | Description | Quite Imposing PLUS | Quite HOT Imposing |
|---|---|---|---|
| Acrobat plug-in | Runs as an extension to Adobe Acrobat | • | |
| Standalone | Watched folder and command line. Suitable for server use (single location, not internet). | | • |
| N-up Pages | arrange consecutive pages on a larger sheet e.g.2x2 *Not duplicates of the same page - see Step And Repeat, in features of Quite Imposing Plus, below* | • | • |
| N-up Centering | Center the resulting N-up page | • | • |
| Trim & Shift | Deal with "creep" in a folded booklet or add space, shift contents or trim from the edges | • | • |
| Shuffle Pages | Shuffle for cut stacks and other layouts by defining a simple rule (called a "signature"). | • | • |
| Shuffle Even/Odd | Process even/odd pages separately. Split into separate files and merge together († not Quite HOT) | • | † |
| Shuffle Assistant | An easy aid to working out layout signatures | • | • |
| Shuffle Assistant enhancements | More complex layouts including head to head, step & repeat | • | • |
| Adjust Page Sizes | Scale, crop or extend pages with optional rotation | • | • |
| Page Tools | Duplicate pages quickly. Also delete, move, rotate. | • | • |
| Tile Pages | Split pages for printing or to split spreads; can make overlap or bleed. | • | • |
| Reverse Pages | Reverses the order of pages | • | • |
| Insert Blank Pages | Inserts blank pages of creates a blank document | • | • |
| Insert File Pages | Insert pages from a file; easy duplication with or without collation | • | • |
| Insert conditionally | Insert pages until a condition is met, like "multiple of 4 pages" | • | • |
| Impose Annotations & Form Fields | Options to discard or convert to part of the imposition | • | • |
| Create Sample Document | Useful for testing layouts | • | |
| Control Panel | Easy access to all functions | • | |
| Preferences | Define background templates with printers marks etc. | • | • |
| Automation Sequences | Saves a sequence of commands to use again on future impositions | • | • |
| Step & repeat | Fills sheets with multiple copies of the same page (e.g. for business cards, labels) | • | • |
| Manual Imposition | Place pages over any other page at any position and scale. | • | • |
| Define Bleeds | Impose pages with artwork that overruns the printing edge designed to be trimmed later. | • | • |
| PDF/X Support | PDF/X-1a and PDF/X-3 are supported. PDF/X-4 and PDF/X-5. Check the PDF/X status of a PDF file and preserve the PDF/X data in the imposition. | • | • |
| Stick on Text & Numbers | Add numbers and/or text to pages or imposed sheets. | • | • |
| Stick on fields | Stick on automatic text like file name, date, page count. | • | • |
| Bates Stamping | Enter numbers with a leading zero. Useful for law firms and Government agencies. | • | • |
| Stick on Masking Tape | Define a layout for "tape", stick on one or more pages. | • | • |
| Peel off Page Numbers, Masking Tape or Registration Marks | Undo "Stick on" functions, remove crop marks | • | • |
| Imposition Info | View origin of imposed pages for full accountability; also extract imposed pages for reuse, and delete pages from imposition. | • | |
